OUTLAW MINI MOD SERIES

Fast, Fun, Affordable Racing.

The Outlaw Mini Mod Series was designed to put racing back into the driver's hands... Not the owner's pocketbook. Well designed cars using smart technical rules makes this series competitive, fun, and a very affordable option for racing in Southern Minnesota, Northern Iowa and Western Wisconsin. A race ready, 'turn key' car only costs \$7,495. The cars weigh around 900lbs. (with driver) and sport 120hp EFI Engines. With that much power, running on the 8" tires makes it a challenge to "hook" these cars up. This puts the racing back into the hands of the "driver". With strict rules requiring the motors to remain "stock" along with other smart technical rules we created an affordable, 'fair', and fun racing series.

GENERAL CAR SPECS:
